# **Application How-To Guide**

## **Inquiry Form**

First you will need to complete the inquiry form, which will ask for basic personal information. Please note that the first email entered will be the primary email used. If you try to use the same email for a different application, it will not work.

< >		
Personal Information		
Il us more about yourself or <u>Click Here</u>	to retrieve an application.	
/ sharing your information, you are agr	eeing to receive communications from us.	
First Name *	Last Name *	
Preferred First Name		
ou will use the first email address enter	ed to access your application.	
Email Address *	Email Type Personal	×
	ADD ANOTHER	

Once the inquiry form has been submitted, check the first email account you entered for your application link. The email should look like the one below. You may need to check your spam folder for the email. The first link in the email will take you to the application page.

## **Two-Factor Authentication (2FA)**

Before you can proce you will need to setu authenticator. You m authenticator you pr we highly recommen Microsoft Authentica are instructions for s using Microsoft Auth for this application.

eed further, Ip an	<ol> <li>Install an authenticator app, such as Google Authentica</li> <li>In the authenticator app, select the "+" icon to add an</li> </ol>	ator, Authy, etc. account.	
nay use any	3. Scan the QR code below to get your access code.		Please enter the code from within your previously set up mobile authenticator app to
efer, but			access your application.
			Enter Authentication Code
ator. Below			Code
pecifically enticator			SUBMIT
	Or enter this key into your app to get your access code

#### Downloading the authenticator

top of the list.

These steps to set up the Microsoft Authenticator should be fairly universal. You may see the screen below, asking for the Microsoft Authenticator to be downloaded. On your phone, download Microsoft Authenticator.

## Configuring and syncing the app with RLC

In the Microsoft Authenticator app, click on the "add" button (plus sign) in the top right corner, then select work or school account.

**From your phone**, select Scan QR code. **On your computer**, if you do not already see a QR code, click next and it should take you to a screen with one. You can then scan that with the app on your phone.

Once the QR code is scanned, on your phone you should see a new area with your email and six numbers underneath it. These numbers are the code that it is requesting on the computer side. The code will change every 30 seconds and become unusable when the timer runs out. If that happens before you entered the code, you must use the new code that was generated. You will use this method on all future login attempts as well.

# **Application Form**

Once 2FA is complete, you will be taken to the application homepage. This will show how many pages have been completed, and the current status of the application. Once you are ready to begin, select START.

plications home	START NEW APPLICATION
PAGES MPLETED     Rend Lake College 2024 Application v5     START	David Nelson Ø +1
Rend Lake College - <u>https://www.rlc.edu/</u> <u>Ellucian Privacy Policy</u>	

The application will have several areas to fill out and select through out the form. Anytime you see an asterisk \* in a field, that means this field is required. Once a page is complete, select CONTINUE in the bottom right hand corner. You may also go to a section by clicking on any of the sections on the left-hand side bar. Feel free to come back to a section later, the steps do not need to be completed in order.
