Persian Student Enrolled at Mt. VCC 'Digs' American Teenagers' Slang, Food

How would you like to take twenty compulsory subjects your first year at Mt. VTHS? Reza Beikhani, Persian student now attending the Community College, had to take twenty different subjects when he started his high school career in Teheran.

Included were such courses as chemistry, physics, geography, botany, and two foreign languages, the normal curriculum in Iran.

Reza, or Jack as he is called here, came to America in 1958 to study engineering, and he first attended the University of Michigan for six weeks to learn English. He found reading English symbols from left to right quite odd, for in Persia, the reading and writing are done from right to left.

He studied for one semester at Oklahoma A and M, where he coached wrestling. Reza was a champion in the sport in Iran.

Reza's brother is studying at SIU. Reza chose Mt. VCC instead of a larger college because "In almost every college, large or small, there are some students who speak my native language. In order to improve my English, I must associate with people who speak only English."

Likes Casual Dress

He says he likes Mt. VCC and American schools because, "I can dress casually and be comfortable."

In Iranian schools, the students must wear coats and ties, instead of the sports shirts and levis or slacks that Mt. Vernon students wear.

Reza was amazed at first at the casualness of the American classroom. He laughingly recalls an incident at Oklahoma, saying, "while I was giving a speech, the students made like sleep and smoked." Thus he describes the students' slouching in their chairs.

Discipline is strict in his native schools, he says. All students rise when the teacher enters the room and show strict attention throughout the class period.

System European

The Iranian school system is much like that of European countries; a student must attend the six primary grades, and only those whose scholastic scores are high enough and who desires to do so may attend high school.

REZA BALAKAMI, MT. VCC student from Iran, shows News reporters, Sharon Porter, left, and Kaye Purcell, right, the intricate artwork on some of his prized Persian possessions. Sharon is holding a picture album with a mosaic top and Kaye has a cigarette box which is artistically decorated inside and out.

Before entering the fourth year of high school, a student must pass an examination.

Reza says that teens in Iran are very much like those here in America. They have teen towns, enjoy rock and roll, and like to dance, bowl, play tennis, and participate in other sports.

There is not much juvenile delinquency in Iran, and Reza feels this is due partly to the fact that everyone goes to work as soon as he completes his schooling, whether it is after the sixth grade, high school, or college.

Customs Similar

Persian dating customs are much like those in America. Parents sometimes do arrange dates, however, and even some marriages are settled between families.

Reza's family lives in Teheran, the capitol of Iran, and his father has twice been governor of one of the Iranian states. Iran is one-fifth the size of one of the United States and has a similar climate and similar modern conveniences. The people drive German sports cars and American-made autos, Reza said.

He finds teenage slang difficult to understand, but is picking up a few words all the time. When

asked how he likes America, Reza replied with a broad smile and a twinkle in his eyes, "I dog!"

About American food, Reza says, "Hamburgers and hot dogs are quite different from the rice and Khorsh that we eat in my country, but how I like those hamburgers!"

Mt. V. College Elects Council

The newly elected student council of the Mt. Vernon Community College, held its second meeting today. Stated for discussion were the following items: publicity for the college, plan for the first party, and the budget for the year.

Sophomore representatives of the council are Gary Sweetin and Mary Kiefer. Freshmen members are Don Reed and Deanna Arnold. Representatives-at-large are sophomores Bill Randall, Al Farmer, and Jean Hutchinson. Council sponsor is Mrs. Betty Ann Ward.

Officers of the council are as follows: Gary Sweetin, president; Mary Kiefer, vice-president; Deanna Arnold, secretary. The offices of social chairman and publicity chairman are held by Bill Randall and Jean Hutchinson.

At the first meeting of the council, the president stressed the fact that the student council is charged with the improvement of the college. "Our first aim is to establish a closer relationship between the student council and the student body. The second aim of the council is to make Mt. Vernon and the surrounding areas aware of the Community College's goals and achievements," stated the president.

Warriors Go With 3 Sophs, 2 Freshman In First Game

Mt. Vernon's Community College Warriors will open with three sophomores and two freshmen in the starting lineup against Paducah Junior College here Saturday night.

Coaches J. D. Shields and Will Lee have announced that returnees Al Farmer of Woodlawn, and Bobby Glenn of Dahlgren, will start at forward and Tom Charlton of Mt. Vernon, another soph, will be at a guard position.

Newcomers to the Warrior lineup are Larry Stewart, at center, was slated for a starting job but has been ill for three weeks and probably won't see action before Dec. 22.

Game time at the high school gym Saturday night will be 7:30. Admission to the college games is 75 cents for adults and 40 cents for students.

The Paducah quintet features three tall front-court performers and a pair of speedy guards. The Kentuckians play a running game and Saturday night's match has the makings of a high-scoring affair because the Warriors have been running in practice sessions.

Last year Paducah dropped the Warriors by 15 points in a game at Mt. Vernon. Then the Warriors took a 5-point decision in a return match at Paducah.

Mt. Vernon coaches have been happy with pre-schedule drills and are optimistic concerning Warrior chances this year.

MT. V. WARRIORS OPEN HERE SATURDAY

Mt. Vernon's Community College Warriors start their 1959-60 basketball campaign here Saturday night against Paducah Junior College. Game time at the high school gym is 7:30. Mt. Vernon and Paducah split a pair of decisions last season. Warrior Coach J. D. Shields and Will Lee have been employing a running game in practice sessions and are optimistic of Mt. Vernon chances this year. Seated above, l to r: Donnie Bond, Jack Sweetin, Frank Moore, Tom Carlton, Charles Hughey, Jim H. Moore and Al Farmer. Standing: Coach Lee, Jim R. Trip SIU Juniors, 73-63

MTV Warriors Annex First Win Of Season

By JIM BURNES

Coach J. D. Shields called a 6:00 o'clock practice last nite for his Community College Warriors who then responded by defeating the SIU. Jr. Varsity of E. St. Louis at 7:30. The Warriors, after losing their opening 3 games, posted a convincing 73-63 victory over the E. St. Louis team for their first win of the season.

Glenn High With 21

Bob Glenn led the way for the locals as he poured in 21 points on 9 field goals and 3 free tosses. Glenn was followed closely by guard Tom Charleton and forward Larry Stewart with 17 points each.

Crabtree Is Outstanding

Ron Crabtree, playing his first game as a Warrior, was probably the outstanding player of the game. Crabtree led Mt. V. rebounders with 14 and played a very fine defensive game. It seemed that Crabtree came up with the right play when it was most needed, on both defense and offense.

Warriors Lead 32-29 At Halftime

E. St. Louis grabbed an early lead but couldn't hold on as the Warriors caught up and took the lead at 24-22 and increased it by one point at half-time, 32-29.

Shoot .608 In Final Half

As the second half began the locals pulled out front by nine points, 41-32. With 7:30 left in the game the Mt. Vernon quintet began to stall in order to protect a 57-50 lead. Charleton did some fine ball-handling and his teammates finally found the range from the charity stripe as they held on for the 10-point victory.

For the period Coach Shields' squad hit an amazing .608 from the field on 14 of 23 attempts. At the same time E. St. Louis could manage only 11 baskets on 42 tries for .261. The locals hit a total of 28 field goals for the nite, and missed 36 times for a .437 percentage as compared to 21 of 25 and a .247 percentage by E. St. Louis.

It was a team victory all the way for the Mt. Vernon squad who now have a 1-3 season record. Al Farmer played a good defensive game and did some good ball-handling; Stewart and Glenn were both very effective on offense; Crabtree was outstanding on defensive rebounding; and Charleton played well on both ends of the court. Two reserves Loss and Moore, combined for 7 of 8 free throw attempts.

Mt. V. Box Score:

	F.G.	F.T.	Pts.
Glenn	9-19	3-3	21
Farmer	2-14	3-6	7
Charleton	7-20	3-9	17
Crabtree	2-4	0-2	4
Stewart	8-16	1-3	17

Voters to Decide Bond Issue

THE PROPOSED ADDITIONS for Mt.VTHS, to be voted on Dec. 19, include a high school and college library (upper right) and the science and classroom building (lower right). Building B will be torn down because of unsafe conditions. Buildings A (left-center) and F (extreme left) will remain with minor remodeling carried out.

December 1959

Extra Funds Would Provide Labs, Classrooms, Library

On Saturday, Dec. 19 from 12 noon to 7 p.m., polls will open for the Mt.VTHS \$2,000,000 Bond Issue. Voters may cast ballots in the Mt.VTHS Boy's Gymnasium, Ina Grade School, Belle Rive Grade School, and Rome Consolidated School.

If the bond issue passes, two new buildings will replace the overcrowded and unsafe Building B, and other buildings will be repaired to meet state requirements.

One new building would be a combination high school and college library building. Two reading rooms to accommodate 75 each, two study halls to accommodate 150 each, two stack rooms, a storage room, work room, binding room, and school publications room would be housed in this building.

The new science and classroom building would contain two biology labs, two chemistry labs, a physics lab, three science classrooms, and 16 academic classrooms.

Improvements Listed

Other improvements would include a central heating plant, a new boiler room and new pipe trenches.

The revising of wiring, purchasing of new electrical fixtures, repairing of Building C and cafeteria and remodeling of other buildings to meet safety requirements would be necessary. Part of the money would be used to wreck Building B, grade walks and drives, and landscape the area. Some new land would have to be purchased.

36 Cent Increase

To meet these requirements 36 cents total tax rate, 25 cents for bond issue and 11 cents for educational tax, for each hundred dollars evaluation will be needed. If one multiplies the assessed valuation by 36 cents on each \$100 evaluation, he gets the exact amount of his yearly tax. For example, if the house or farm is assessed at:

1. \$2000 you pay 20x.36 or \$7.20.
2. \$5550 you pay 50x.36 or \$18.00.
3. \$7000 you pay 70x.36 or \$25.20.

The house or farm might have a market price of \$7000 but be assessed at \$3500. The tax would be applied to the \$3500 not the \$7000.
