GETTING IN PRACTICE — Rend Lake College student Kaylan Grove traded his 1987 Honda Nighthawk motorcycle for a welder so that he could practice the trade in which he is currently earning an associate's degree at the college. Grove is the first recipient of a scholarship sponsored by Magnum Steel Works of Mt. **Vernon.** (Rend Lake College Photo)

### Grove has drive to weld

BY NATHAN WHEELER

ocal manufacturer Magnum Steel Works Incorporated started a scholarship this semester for a Rend Lake College welding student. The first recipient of the \$1,000 education award is Kaylan Grove of Mulkeytown.

Magnum Steel Works President and CEO Jim Czerwinski could not have found a more deserving recipient.

Kaylan is the son of Carrie Grove and is a graduate of Zeigler-Royalton High School. His woodworking teacher at Z-R

High introduced him to a welding teacher at Christopher High School. Kaylan refers to him as "Mr. Fletcher" and wasn't sure of his teacher's first name. "Mr. Fletcher" is CHS welding teacher Mike Fletcher, who has been in charge of the program since 2005. Kaylan credits him for everything he has learned to do with a welder so far.

Fletcher, also from the Zeigler area, worked on cars with Kaylan's father years ago. Kaylan gets his work ethic from his dad, according to Fletcher.

**RLC** graduation rate fifth in the

U.S. among peer institutions

end Lake College lands fifth on the latest top 10 list of public community colleges in the nation with the best graduation

First-time, full-time students at RLC complete their degree 50.3 percent of the time, according to the Chronicle of Higher Education's Almanac of Higher Education. In the article "Colleges With the Best 6-Year and 3-Year Graduation Rates in 2010," the Chronicle compared public two-year colleges across the country with at least 500 freshmen entering in the fall of 2007. It tracked these students to find out how many earn their degree within 150 percent of the normal time it takes to do so.

President Terry Wilkerson said he is proud to see RLC representing Illinois on a list of the best colleges across the country. He also said there is still much work to be

"We need to continue to strive to improve on this," said Wilkerson. "The fact that 50 percent

makes us fifth in the nation is not acceptable. That's not good enough. We are going to keep our focus on our students and their success, and work hard to help them accomplish what they come here to do."

The top 10 two-year public colleges for graduation rates include:

• 1 — Lake Area Technical Institute in South Dakota, 73.5 percent;

### • 2 — De Anza College of California, 59.8 per-

- 3 Middle Georgia Technical College, 54.5
- percent; • 4 — Alexandria Technical and Community Col-
- lege in Minnesota, 51.0 percent; • 5 — Rend Lake College, 50.3 percent;
- 6 Northeast Community College in Nebraska, 49.2 percent;
- 7 Snow College in Utah, 47.3 percent;
- 8 Chippewa Valley Technical College in Wisconsin, 47.1 percent;
- 9 Western Technical College in Wisconsin, 45.7 percent; and • 10 — Foothill College in California, 45.6 per-

Wilkerson added an interesting trend he sees in the Chronicle's report.

"Smaller schools are producing the best completion rates across the country," he

said. "Most of these schools, like us, have less than 6,000 students and a majority of the colleges on this list are located in a place with around

20,000 or less residents." According to the report, the information comes from the most recent data

available from the National Center for Education Statistics' Integrated Postsecondary Education Data System, or IPEDS, as well as the Voluntary System of Accountability's Success and Progress Rate. This data is from 2010. For its overall report, the Chronicle looked at 3,800 degree-granting institutions in the United States and showed the top 10 for four-year public and private universities, two-year public colleges, and for-profit colleges.

## College launches new AskRLC service

REND LAKE COLLEGE NEWS STAFF

ot questions? RLC's got answers! The college has a new textmessaging service that allows students to ask any question, provide feedback, and interact with college events.

How does one do it? To get started, just text the phrase "askRLC" to 66746. Once a student is registered, they can store it as a contact, and begin using the service. It's that easy!

According to Beth Mandrell, RLC's reference librarian, AskRLC is a service

that is monitored by the library staff and allows users to text any question from a mobile device and get a guick response.

"The best part, it's free and easy to use!" said Mandrell. "You no longer have to wait until you're around a computer. You can use your phone, iPad, or any other mobile device that allows texting."

Unlike the old Ask a Question service, where staff members monitored the entire state of Illinois, AskRLC only accepts questions from current RLC staff and students. Questions will be answered from 8 a.m. to 4:30 p.m. Monday through Thursday and 8 a.m. to 4 p.m. Friday. Holidays and

weekends are excluded. Text messaging rates may apply based on a user's plan.

RLC's newspaper is using AskRLC to poll the student body for a name for the newspaper.

"It's your newspaper. You name it. That's how I and the newspaper staff see it," said editor Nathan Wheeler. "We are encouraging any student to submit a name for the newspaper. This can be done a number of ways — from posting it on the college's Facebook page to dropping it in a suggestion box or using AskRLC. Just text your idea for a name for the newspaper to 66746. The staff will take all the suggestions and pick the one it likes."

## **MS Walk in King City** provides opportunity for community involvement

**BY TYSON HILL** 

REND LAKE COLLEGE NEWS STAFF WRITER

end Lake College students looking to take a more active role in the district will find an excellent opportunity with the Walk MS Mount Vernon 2012 event coming up Saturday,

The event to support Multiple Sclerosis research will be held at Veterans Memorial Park in Mt. Vernon and is through the National MS Society.

From the CEO on the top floor of a skyscraper, to the undergrad trying to find a niche, community involvement is critical. It promotes a sense of camaraderie and duty among community members, financially and structurally strengthens communities — more active communities attract more business — and sets an example for future generations.

Registration will begin at 10 a.m., and participants are able to register individually or in teams. For those in teams, a professional photographer will be on site for photos.

The walk will begin at 11 a.m. Participants are challenged to walk a distance of one to three miles. A mile is one full lap around the park.

Upon completion, walkers have the option to stay for a light lunch and awards before leaving. Proceeds from the event come from donations and go to the National MS Society to benefit those diagnosed with Multiple Sclerosis.

For more information about this and other events sponsored by the National MS Society, or to register in advance for the event, visit http://walkmos.nationalmssociety.org.

tion. You're in college now. With hard work and good choices, you can get to your goal, whatever it may be.

It's been years since we've had a newspaper on campus. When the Mt. Vernon Sentinel approached us this past summer about starting it up in a new format, we jumped at the opportunity. It's a great connector for campus: something that inspires community spirit in the student body and unifies anyone with a stake in this institution. I applaud the students who have stepped forward to offer their time, energy and talent to put this product together. I understand that students can still step into a newspaper staff role. I encourage you to take that step, if you are considering becoming a part of the team.

I invite you to come by my office in the administration building if you need anything. I welcome feedback, good or bad. We are centered on our students here at Rend Lake College, and that starts with me as president. When you achieve, we succeed.

## **RLC Campus Connection**

Our own Fernando Jacinto set out on campus to find out ... Q: Where do you get your news?

• Mason Garner, 18, Mt. Vernon, General Education/Undecided A. Personally I get my news from the Internet. Mostly Twitter, which is kind of irrelevant for real news, but with my friends' news. ... I actually sit down and read a newspaper at work because well, they're available there and it kind of kills a little time I have left over when all my work's finished.

• Elizabeth Bailey-Smith, 44, Marion, RLC Speech Associate Pro-

A. It depends. I try to read newspapers. I also go online. I also watch the news.

• Joe Ervin, 35, Plymouth, Mich., RLC English Associate Professor/Professional Man of Leisure

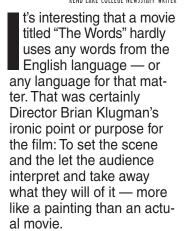

A. I get my news from [National Public Radio] because I listen to it on my way to school.

• Kaitlin Stanart, 19, Mt. Vernon, Psychology

A. I get my news from Facebook and the news from TV (CNN). [CNN] is what is available during work.

### 'The Words' keeps audience members interested

**BY BRECCA MULLINAX** 

The plot itself is more than captivating enough. It centers on a young man named Rory Jansen,

Fried Chicken Salad

INTRODUCTORY OFFER

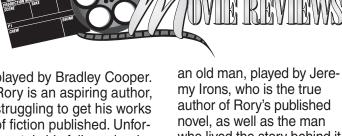

Your Hometown Pizza Man

(A Salem Iradition)

Not valid with any other discount offer.

Expirés 9/27/12

WE USE ONLY FRESH INGREDIENTS -

played by Bradley Cooper. Rory is an aspiring author, struggling to get his works of fiction published. Unfortunately his failures lead him to a breaking point. He plagiarizes another man's literary work to gain the prestige, honor, life and feeling for which he has longed. The life he believes is his — the one he has made for himself dishonestly — becomes unraveled by

my Irons, who is the true author of Rory's published novel, as well as the man who lived the story behind it.

I think it would be interesting to determine the average number of words used in a film today and size that up with the word count in "The Words." I believe it would be much less.

The performances of the actors were superb. Not only were Jeremy Irons and Bradley Cooper great, but the supporting characters Dennis Quaid, Zoey Saldana and Olivia Wilde portrayed added a lot to the film. The pace of the film was rather slow and placid at times, however the director still did a wonderful job of making the audience curious as to what will happen next.

Klugman's blurring of the line between what we believe to be the real life story of the film and what is actually fiction makes the viewer think hard about what he or she just watched. I found myself thinking a lot about the movie after I watched it. I

Overall, I give the movie 3.5 tickets out of 5 for originality and good looks. Everyone in the movie was quite beautiful! With some suggestive scenes, I give it 3 buckets of popcorn out of 5 for family-friendliness.

## State workforce investment leaders meet at RLC

SPECIAL BOARD MEETING — The Illinois Workforce Investment Board (IWIB) welcomed Illinois Lt. Gov. Sheila Simon as its guest during the board's meeting held recently at Rend Lake College in Ina. Members in attendance include, FROM LEFT, IWIB Co-Chairman John Rico, Lt. Gov. Simon and Centralia Mayor Tom Ashby, cochairman of the IWIB. (Rend Lake College Photo)

BY NATHAN WHEELER

he Illinois Workforce **Investment Board** meeting last week at Rend Lake College featured more than 30 leaders in the public and private sectors talking about the state's economy and workforce initiatives, as well as goals to network businesses, employer associations, education partners, and other stakeholders.

Board members welcomed Illinois Lt. Gov. Sheila Simon as a guest. RLC President Terry Wilkerson thanked the board for coming and invited those in attendance to tour the campus after the meeting.

"We really value the rela-

tionships we have with area employers," said Wilkerson. "The college is privileged to be the setting where so many representatives from the public and private sector come together to learn about the status of Illinois' workforce and economy, and plan measures for growth. Rend Lake College is eager and well-positioned to do its part to help them reach

those goals." Centralia Mayor Tom Ashby is the current chairman of the IWIB and has been a member for more than a decade. He helped put the meeting together at RLC. According to Ashby, it was one of the best turnouts for an IWIB meeting since he

"This was the first Southern Illinois meeting in quite a few years for the board," Ashby said. "I thank the college, its board and President Terry Wilkerson for the opportunity to hold it at Rend Lake College, and I commend them for addressing emerging training needs in southern Illinois.'

The IWIB is made up of representatives from universities, colleges, high schools, government agencies, private companies and more. Some of the employers represented during themeeting at the college included UPS. John Deere, Caterpillar and Kraft Foods. State agencies represented included the Illinois Department of Commerce and Economic

Opportunity, with Director David Vaught and his staff at the table, and the Illinois Department of Labor, with Director Joe Costigan and his staff participating.

"We are a board that develops training programs to strengthen the state of Illinois' workforce system and economic development," Ashby explained. "We have many different partnerships in the public and private sec-

One IWIB program Ashby mentioned is the Illinois Critical Skill Shortages Initiative designed to align region workforce strategies with economic development to provide qualified workers for critical skill shortage occupations. Key sectors being targeted are healthcare, manufacturing, and transportation/warehousing/logistics. Ashby said agriculture is also being added to the initiative.

He said the program strives to identify good-paying occupations that suffer skill shortages, look into the causes that lead to these shortages, and redirect existing resources to address those issues.

'One thing we've been working on is reintroducing vocational aspects into the regular curriculum at grade schools, high schools and community colleges," Ashby said. "... We don't have a shortage of jobs in Illinois.

are a perfect example of that."

Ashby said plans for more efficient use of funding to make training initiatives more cost-effective are encouraging.

"We feel the cornerstone is the public-private partnership," he said.

### 'Lake' makes a splash with launch party

BY RHEANNA GRIZZELL

Editor's Note: The RLC Newspaper will feature samples from "Lake" in upcoming issues.

he appreciation of art and writing can sometimes be difficult to feel, especially when the work is that of strangers. It becomes so much more realistic and fantastic when people near you have published their beautiful pieces in a journal for everyone to see, the whole campus to see.

Rend Lake College is proud to present the first issue of "Lake" — the journal full of students' work in painting, drawing, photography, ceramics, fiction, poetry, and more. English Literature Associate Professor Peggy Davis said "Lake" was born because faculty and staff saw a need for students to have a creative outlet and showcase their talents.

On Sept. 7, the Lake Launch Party was held at Pheasant Hollow Winery to release RLC's new publication. The event included a slideshow of all the pieces with refreshments and companionship among fellow appreciative observers, artists, family members, and professors.

Several in attendance spoke at the event, including students Shawn Campbell, Nik Jennings and Rob Whisenhunt, who showed his short film.

"It went really well," Davis said. "We had probably 25 to 30 people there, including several of those who were chosen to be in the issue. I think they all had a good time. I think it was really encouraging for them to see how appreciative others are of their work. They autographed copies of the publication. It was a lot of fun."

From participating in meetings to volunteering to read and judge, and producing and printing to folding and promoting; Davis said there are so many individuals who had a hand in launching "Lake" that she was afraid she might forget someone if she tried to name them all.

"Administration has been very supportive," she said. "And of course Buster [Leeck] has been very helpful. It was, literally, a campus-wide effort."

For the fall issue, the submission deadline is Oct. 1. The plan is to judge that week and go to print, according to Davis. For

The "Lake" Launch Party was held Sept. 7 at Pheasant Hollow Winery. (Rend Lake College Photo)

those who would like to submit, but can't make that deadline, another chance will come along in the

spring. The guidelines and other information is posted on the Liberal Arts page on the RLC website.

### **Culinary Arts Club kicks** off 2012-13 campaigns

**RLC** Culinary Arts students take on international cuisine

BY MELISSA GIBBS

REND LAKE COLLEGE CULINARY ARTS CLUB The Culinary Arts Club is already in high gear and ready to roll. The club's first big activity will, of course, be Fun Fest. Stop by the booth to see the pie eating contest, or test the palate at our booth to win cool prizes.

One does not need to be part of the culinary program to join the club. It's open to all students across the campus and the club is still seeking new members. Join for a post-Fun Fest meeting at 2 p.m. Sept. 20 in STC 110.

The Culinary Arts Club is currently planning to open up the kitchens for additional educational activities, field trips to St. Louis to explore the culinary scene and taste five-star food, as well as a few fairly-cool fundraisers to help fund a trip to the National Restaurant Association show in Chicago again.

The club is much more than just activities. It's about sharing ideas and forging friendships that will last through your professional careers.

Sophomore Culinary Arts students are wasting no time in learning the various tastes from other countries.

It's only mid-September and they have already researched and experienced the cuisine of Mexico, South America, the Caribbean, Japan, China and Southeast Asia. It's hard to walk through the Student Center and not be drawn towards the exotic smells drifting from the learning kitchen.

The recipes are traditional to the native countries, rather than Americanized versions that many are used to. With multiple groups making the same recipe each week, it's shocking how many different interpretations of the same item are produced in a given class period. It doesn't matter how simple or complicated the recipe, it's never the same from group to group. Simple items, such as fried rice, become an unspoken competition across the groups with everyone struggling to put individual spins on the dishes so they can come out on top. There is no real winner, only bragging rights. But that's enough!

In the coming weeks students will explore Spain, Africa, the Middle East, Russia, Italy and Greece and

### Ensalada de Aguacate y Pina

(Avocado and Pineapple Salad) Serves 4

1/4 cup Olive Oil

1/4 cup Cider Vinegar 1/4 cup Fresh Orange Juice

1/4 cup Granulated Sugar

To Taste: Salt and Pepper

4 cups Iceburg or Boston lettuce, shredded

1 cup Fresh Pineapple (1/2 inch cubes)

1 cup Red Onions, thinly sliced

1 Avocado, peeled and sliced 1/4 inch

4 Fresh Lime Wedges

### **DIRECTIONS**

1. Combine olive oil, vinegar, orange juice and sugar in a blender until smooth. Season with salt and pepper.

2. Lightly toss together the lettuce, pineapple and red onions. Dress with oil and vinegar mixture; adjust the amount used to taste.

3. Garnish individual salads with several avocado slices lightly seasoned with salt and pepper and a squeeze of lime juice. Serve with lime wedges.

Cafe .....

continued from page 2

Warrior Cafe menu has included delicious treats from the culinary and baking classes, like cookies, muffins, pies, fresh fruit and bread. These are all provided by the Rend Lake culinary students. The prices are reasonable and the quality will only grow as the students improve their skills in the kitchen.

Unlike in other semesters, where the students have done small quantity production, the students are now producing more in an effort to help them better experience what the workforce will feel like once they leave the safe confines of the classroom. This experience is invaluable and nothing validates their success like empty trays of food when the Warrior Cafe closes for the day. The cafe accepts cash only and everything is boxed to go. Menus for the week typically come out on Monday. Be looking for them on the bulletin boards.

### ~~~~~~~ AREA EVENTS ~~~~~~~~

"He had a passion for it. I could tell that," said Fletcher. "I saw him at graduation and he told me he finally had some focus on where he wanted to go and what he wanted to do, and that was welding.

Pete Wilce, an instructor in RLC's welding technology program, said Grove has a

"He is advancing so fast in our program," said Wilce. "He really has talent. Kaylan's already doing things we are teaching the students in the class ahead of him."

"I just took to it," said Grove. "My grandpa was a welder, so I was kind of intrigued to find out what it was like. After high school, I just wanted to pursue a career in it. I believe it will be a good career choice for me. I am so thankful for the scholarship. It is going to help a lot."

He doesn't have much money. Kaylan and his fiancé are raising their newborn baby, 3-week-old Isabel. He works part-time on flooring jobs with his soon-to-be father-in-law. Carrie was supporting both of them on a limited income. But what Kaylan lacks in resources, he makes up for in passion for his chosen profession.

His drive to weld even led him to trade his only mode of transportation — a 1987 Honda Nighthawk motorcycle — for a welder from his future father-in-law.

"It's just a little stick welder," Kaylan said. "But I needed it to practice. I've probably got about a year's practice on it. I paid about \$900 for [the Honda] and ended up trading it for a \$600 welder because I wanted to practice." He grins. "I love to weld. There's just something about it." Kaylan's driving his

fiancé's car or picking up rides with classmates to get to school. He said his goal is to graduate from RLC with an associate degree in welding and get started on his career. Czerwinski met with **RLC Foundation CEO** Shawna Hall to set up the scholarship criteria. The student must have a GPA of 2.0 or better and priority is given to a full-time student majoring in welding technology.

"We are so thankful for individuals and businesses in our communities who see the importance of continued education. They recognize the financial need that so often is paired with going to college and they step forward to meet that need," said Hall. "Without the generosity of scholarship supporters like Magnum Steel Works, many students – students like Kaylan Grove – may not realize their dream of going to college and learning skills that can improve quality of

Kaylan Grove

life for themselves and their loved ones."

"I think it's wonderful," Carrie Grove said of her son receiving the scholarship. "I'm so proud of him. He is a great kid who would do anything for anybody. He is bettering himself and I'm very proud."

For more about this story or other scholarship giving at RLC, contact the Foundation at 618-437-5321, Ext. 1324 or send an email to foundation@rlc.edu.

## Men's golf starts season with third at own invitational

**BY MARK HOPKINS** 

end Lake College's all-freshmen men's golf team got off to a good start in their fall season by finishing third in their invitational Aug. 24 at Franklin County Country Club in West Frankfort.

Parkland Community College finished with the top honors at the invitational after shooting 298–289 for a score of 587 overall. That was one stroke below the John A Logan College Volunteers, who finished a close second after shooting 298-290 for a total score of

The Warriors finished at 591 overall. It shot 294 in the first round and added three strokes with a 297 in the second. RLC was led by Sam Penrice, a product of Hastings, New Zealand, who finished third in the tournament.

Lewis and Clark Community College finished fourth at 594. Other teams that participated include Morthland College, Kaskaskia College, Vincennes Univer-

MEN'S GOLF TEAM — RLC's Sam Penrice tees off on the 14th hole at the men's golf team's invitational, Aug. 24, at Franklin County Country Club in West Frankfort. Penrice took third place, leading RLC to a third-place finish in the tournament. The team will continue fall play Sept. 23 and 24 at the John A. Logan Invitational in Marion. (Rend Lake College Photo)

sity, Lincoln College and Mineral Area College.

Aaron Bravick (Lincoln College) finished first in individuals, shooting 141 (69-72). Penrice finished in a tie for fourth after shooting 144 (70-74). He drove the ball well early and stayed in the running for the top spot.

"My short game's keeping me in it," Penrice said before teeing off on the 14th. He added that his putting was another one of his strong points on the day.

RLC's Dayton Jones (Hopkinsville, Ky.) finished behind Penrice in the standings, shooting 145 (74-71) in the invitational, followed by Travis Waninger (Chrisney, Ind.) at 147 (72-75) to tie for 11th. Patrick Heller (Campbell Hill) tied for 29th àt 157, Cody Drone (Altamont) finished 31st at 158 and Seth Bullard (Mount Vernon) tied for 37th at 164.

The men's golf team will be back in action on Sept. 23 and 24, at the John A. Logan College Invitational held at Kokopelli Golf Course in Marion.

LADY WARRIORS VOLLEYBALL TEAM — The Lady Warriors volleyball team huddles up before its home opener with Southwestern Illinois College. Off to a disappointing 4-13 start, Coach Sara Crews and her club are working to turn things around. RLC will host Lake Land College at 6:30 p.m. Wednesday in Waugh Gymnasium. (Rend Lake College Photo)

## **Lady Warriors volleyball** challenged early in season

BY JOSH MYERS

ne month in, Rend Lake College Volleyball Head Coach Sara Crews and the players are 4-13 and looking to get better in all areas.

"There's room for improvement," said Crews.

The Lady Warriors are coming off a disappointing stretch where they lost three consecutive matches no set victories.

Crews commented, "One thing we're struggling on is trying to get the team to play consistently all the time and get them to play the way I know they can play all the time."

The players believe they need to work on communicating during matches.

Sophomore Jennifer Moeller from Nashville said, "We really need to work on our talking. Our communication needs to improve and we need to be an up-tempo team."

They feel better communication will lead to better defense, an area the Lady Warriors know they need to work on.

Crews stated, "Defense is one of the areas where we lack. In our previous matches in

Kansas, there was quite a bit of improvement on defense."

In the team's most recent home victory against Greenville, the improvements on defense were in full swing. RLC players combined for eight blocks including three by Moeller. Freshmen Abigail Bennett (Ewing) and Emily Tate (Benton) combined for 18 digs in the same game.

The team may be struggling in a few areas, but it's against big competition.

"We've played Lincoln Land [College], who [is] ranked in the top-20 in the country," said Crews.

"We've also played two division one schools in Lake Land College and Iowa Lake [College]. Those two programs are both receiving votes in national polls."

The difficult schedule can help the team long-term, according to Crews.

"We have a really tough schedule this year and I did that intentionally. When I was making the schedule, I didn't want to put a bunch of fluff teams in there. When we get a win, I want it to be one that we deserve," Crews commented.

A number of tough games remain on the schedule. The team feels it will be ready.

"I feel like our team is really coming together so I'm excited for the rest of the season," Moeller commented. Crews stated, "We know

what we need to work on and we are working on it."

## **RLC** tennis making do on abbreviated roster

LADY WARRIORS — Rend Lake College doubles part-

celebrate a point in their win over Kaskaskia College.

ners Ally Adcock, LEFT, and Alyssa Williams quickly

BY JOSH MYERS

REND LAKE NEWS STAFF WRITER ith only three active players, the Lady Warriors tennis team is doing the best with what personnel it has.

(Rend Lake College Photo)

Despite winning most of what matches it has played, the Lady Warriors are winless in two meets against Kaskaskia College on the fall season due to a shortage of players.

They only have three active players; Allyssa Williams (Benton), Ally Adcock (Mt. Vernon), and Alli Reed (Mt. Vernon) and an injured player, Alyssa Burge (Mt. Vernon).

At each meet, the team that wins five of nine matches wins the meet. The Warriors are limited to only winning up to four matches because of the limited number of players.

That doesn't mean they aren't playing to win.

Reed commented, "We only have three girls. We're all just trying to play the best we can to make up for the two spots that we don't have."

Reed moved up to the number three spot from the number four last year and is playing well. She is 1-1 in singles matches including going 6-3, 6-3 in her victory against Kaskaskia.

With no chance to win any meets, Head Coach Dave Junkins is treating the fall season as a measuring stick for the spring.

"We use the fall to see what kind of players we have," Junkins stated. "We're bringing in players from different schools who don't know each other so we're trying to find the different combinations we want to use."

Coach Junkins and teammates are delighted that Williams and Adcock are having solid seasons thus far.

Williams is 2-0 in singles matches winning all sets 6-1, 6-0, 6-4 and 6-2.

Adcock is 1-1 in singles matches. She won her first match with scores of 7-5, 6-2 and lost her second match with scores of 5-7, 6-0 and

The duo is 2-0 in doubles matches, winning 10-3 and 10-4.

"I'm pretty happy with what I'm seeing. Alyssa Williams is playing outstanding," Junkins added.

Reed stated, "Alyssa [Williams] goes after the ball. She grinds. Ally [Adcock] went to state [in high school]."

The team is looking forward to the spring season and contending for another Region XXIV Championship for a ticket to the national championship tournament.

"I'm really happy with the team. If we can recruit another player or two, we'll be a tough team in the spring," Junkins added.

The team needs a few players if they want to compete during the spring. Coach Junkins has a message for anyone interested.

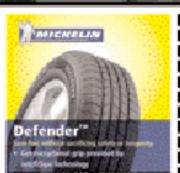

"If you've ever played tennis in the past and you want to get back into the sport, we have scholarships available. Plus, tennis is a great sport. It's a sport the adults haven't messed up," Junkins commented.

If Coach Junkins can get the number of players he needs, he's confident for the spring season.

He added, "We'll be a real good team."

## State workforce investment leaders meet at RLC

SPECIAL BOARD MEETING — The Illinois Workforce Investment Board (IWIB) welcomed Illinois Lt. Gov. Sheila Simon as its guest during the board's meeting held recently at Rend Lake College in Ina. Members in attendance include, FROM LEFT, IWIB Co-Chairman John Rico, Lt. Gov. Simon and Centralia Mayor Tom Ashby, cochairman of the IWIB. (Rend Lake College Photo)

BY NATHAN WHEELER

he Illinois Workforce **Investment Board** meeting last week at Rend Lake College featured more than 30 leaders in the public and private sectors talking about the state's economy and workforce initiatives, as well as goals to network businesses, employer associations, education partners, and other stakeholders.

Board members welcomed Illinois Lt. Gov. Sheila Simon as a guest. RLC President Terry Wilkerson thanked the board for coming and invited those in attendance to tour the campus after the meeting.

"We really value the rela-

tionships we have with area employers," said Wilkerson. "The college is privileged to be the setting where so many representatives from the public and private sector come together to learn about the status of Illinois' workforce and economy, and plan measures for growth. Rend Lake College is eager and well-positioned to do its part to help them reach

those goals." Centralia Mayor Tom Ashby is the current chairman of the IWIB and has been a member for more than a decade. He helped put the meeting together at RLC. According to Ashby, it was one of the best turnouts for an IWIB meeting since he

"This was the first Southern Illinois meeting in quite a few years for the board," Ashby said. "I thank the college, its board and President Terry Wilkerson for the opportunity to hold it at Rend Lake College, and I commend them for addressing emerging training needs in southern Illinois.'

The IWIB is made up of representatives from universities, colleges, high schools, government agencies, private companies and more. Some of the employers represented during themeeting at the college included UPS, John Deere, Caterpillar and Kraft Foods. State agencies represented included the Illinois Department of Commerce and Economic

Opportunity, with Director David Vaught and his staff at the table, and the Illinois Department of Labor, with Director Joe Costigan and his staff participating.

"We are a board that develops training programs to strengthen the state of Illinois' workforce system and economic development," Ashby explained. "We have many different partnerships in the public and private sec-

One IWIB program Ashby mentioned is the Illinois Critical Skill Shortages Initiative designed to align region workforce strategies with economic development to provide qualified workers for critical skill shortage occupations. Key sectors being targeted are healthcare, manufacturing, and transportation/warehousing/logistics. Ashby said agriculture is also being added to the initiative.

He said the program strives to identify good-paying occupations that suffer skill shortages, look into the causes that lead to these shortages, and redirect existing resources to address those issues.

'One thing we've been working on is reintroducing vocational aspects into the regular curriculum at grade schools, high schools and community colleges," Ashby said. "... We don't have a shortage of jobs in Illinois.

We have a shortage of are a perfect example of skilled workers. ... We want that." to use the data we have to Ashby said plans for more place training in the right

"We feel the cornerstone is the public-private partnership," he said.

### 'Lake' makes a splash with launch party

BY RHEANNA GRIZZELL

Editor's Note: The RLC Newspaper will feature samples from "Lake" in upcoming issues.

he appreciation of art and writing can sometimes be difficult to feel, especially when the work is that of strangers. It becomes so much more realistic and fantastic when people near you have published their beautiful pieces in a journal for everyone to see, the whole campus to see.

Rend Lake College is proud to present the first issue of "Lake" — the journal full of students' work in painting, drawing, photography, ceramics, fiction, poetry, and more. English Literature Associate Professor Peggy Davis said "Lake" was born because faculty and staff saw a need for students to have a creative outlet and showcase their talents.

On Sept. 7, the Lake Launch Party was held at Pheasant Hollow Winery to release RLC's new publication. The event included a slideshow of all the pieces with refreshments and companionship among fellow appreciative observers, artists, family members, and professors.

Several in attendance spoke at the event, including students Shawn Campbell, Nik Jennings and Rob Whisenhunt, who showed his short film.

"It went really well," Davis said. "We had probably 25 to 30 people there, including several of those who were chosen to be in the issue. I think they all had a good time. I think it was really encouraging for them to see how appreciative others are of their work. They autographed copies of the publication. It was a lot of fun."

From participating in meetings to volunteering to read and judge, and producing and printing to folding and promoting; Davis said there are so many individuals who had a hand in launching "Lake" that she was afraid she might forget someone if she tried to name them all.

"Administration has been very supportive," she said. "And of course Buster [Leeck] has been very helpful. It was, literally, a campus-wide effort."

For the fall issue, the submission deadline is Oct. 1. The plan is to judge that week and go to print, according to Davis. For

### **Culinary Arts Club kicks** off 2012-13 campaigns

**RLC** Culinary Arts students take on international cuisine

BY MELISSA GIBBS

REND LAKE COLLEGE CULINARY ARTS CLUB The Culinary Arts Club is already in high gear and ready to roll. The club's first big activity will, of course, be Fun Fest. Stop by the booth to see the pie eating contest, or test the palate at our booth to win cool prizes.

One does not need to be part of the culinary program to join the club. It's open to all students across the campus and the club is still seeking new members. Join for a post-Fun Fest meeting at 2 p.m. Sept. 20 in STC 110.

The Culinary Arts Club is currently planning to open up the kitchens for additional educational activities, field trips to St. Louis to explore the culinary scene and taste five-star food, as well as a few fairly-cool fundraisers to help fund a trip to the National Restaurant Association show in Chicago again.

The club is much more than just activities. It's about sharing ideas and forging friendships that will last through your professional careers.

Sophomore Culinary Arts students are wasting no time in learning the various tastes from other countries.

It's only mid-September and they have already researched and experienced the cuisine of Mexico, South America, the Caribbean, Japan, China and Southeast Asia. It's hard to walk through the Student Center and not be drawn towards the exotic smells drifting from the learning kitchen.

The recipes are traditional to the native countries, rather than Americanized versions that many are used to. With multiple groups making the same recipe each week, it's shocking how many different interpretations of the same item are produced in a given class period. It doesn't matter how simple or complicated the recipe, it's never the same from group to group. Simple items, such as fried rice, become an unspoken competition across the groups with everyone struggling to put individual spins on the dishes so they can come out on top. There is no real winner, only bragging rights. But that's enough!

In the coming weeks students will explore Spain, Africa, the Middle East, Russia, Italy and Greece and

### Ensalada de Aguacate y Pina

(Avocado and Pineapple Salad) Serves 4

1/4 cup Olive Oil

1/4 cup Cider Vinegar 1/4 cup Fresh Orange Juice

1/4 cup Granulated Sugar

To Taste: Salt and Pepper

4 cups Iceburg or Boston lettuce, shredded

1 cup Fresh Pineapple (1/2 inch cubes)

1 cup Red Onions, thinly sliced 1 Avocado, peeled and sliced 1/4 inch

4 Fresh Lime Wedges

### **DIRECTIONS**

1. Combine olive oil, vinegar, orange juice and sugar in a blender until smooth. Season with salt and pepper.

2. Lightly toss together the lettuce, pineapple and red onions. Dress with oil and vinegar mixture; adjust the amount used to taste.

3. Garnish individual salads with several avocado slices lightly seasoned with salt and pepper and a squeeze of lime juice. Serve with lime wedges.

Cafe .....

continued from page 2

Warrior Cafe menu has included delicious treats from the culinary and baking classes, like cookies, muffins, pies, fresh fruit and bread. These are all provided by the Rend Lake culinary students. The prices are reasonable and the quality will only grow as the students improve their skills in the kitchen.

Unlike in other semesters, where the students have done small quantity production, the students are now producing more in an effort to help them better experience what the workforce will feel like once they leave the safe confines of the classroom. This experience is invaluable and nothing validates their success like empty trays of food when the Warrior Cafe closes for the day. The cafe accepts cash only and everything is boxed to go. Menus for the week typically come out on Monday. Be looking for them on the bulletin boards.

# Men's golf starts season with third at own invitational

**BY MARK HOPKINS** 

end Lake College's all-freshmen men's golf team got off to a good start in their fall season by finishing third in their invitational Aug. 24 at Franklin County Country Club in West Frankfort.

Parkland Community College finished with the top honors at the invitational after shooting 298–289 for a score of 587 overall. That was one stroke below the John A Logan College Volunteers, who finished a close second after shooting 298-290 for a total score of 586.

The Warriors finished at 591 overall. It shot 294 in the first round and added three strokes with a 297 in the second. RLC was led by Sam Penrice, a product of Hastings, New Zealand, who finished third in the tournament.

Lewis and Clark Community College finished fourth at 594. Other teams that participated include Morthland College, Kaskaskia College, Vincennes Univer-

MEN'S GOLF TEAM — RLC's Sam Penrice tees off on the 14th hole at the men's golf team's invitational, Aug. 24, at Franklin County Country Club in West Frankfort. Penrice took third place, leading RLC to a third-place finish in the tournament. The team will continue fall play Sept. 23 and 24 at the John A. Logan Invitational in Marion. (Rend Lake College Photo)

sity, Lincoln College and Mineral Area College.

Aaron Bravick (Lincoln College) finished first in individuals, shooting 141 (69-72). Penrice finished in

a tie for fourth after shooting 144 (70-74). He drove the ball well early and stayed in the running for the top spot.

"My short game's keeping me in it," Penrice said before teeing off on the 14th. He added that his putting was another one of his strong points on the day.

RLC's Dayton Jones (Hopkinsville, Ky.) finished behind Penrice in the standings, shooting 145 (74-71) in the invitational, followed by Travis Waninger (Chrisney, Ind.) at 147 (72-75) to tie for 11th. Patrick Heller (Campbell Hill) tied for 29th at 157, Cody Drone (Altamont) finished 31st at 158 and Seth Bullard (Mount Vernon) tied for 37th at 164.

The men's golf team will be back in action on Sept. 23 and 24, at the John A. Logan College Invitational held at Kokopelli Golf Course in Marion.

Lady Warriors volleyball challenged early in season

BY JOSH MYERS

ne month in, Rend Lake College Volleyball Head Coach Sara Crews and the players are 4-13 and looking to get better in all areas.

"There's room for improvement," said Crews.

The Lady Warriors are coming off a disappointing stretch where they lost three consecutive matches no set victories.

Crews commented, "One thing we're struggling on is trying to get the team to play consistently all the time and get them to play the way I know they can play all the time."

The players believe they need to work on communicating during matches.

Sophomore Jennifer Moeller from Nashville said, "We really need to work on our talking. Our communication needs to improve and we need to be an up-tempo team."

They feel better communication will lead to better defense, an area the Lady Warriors know they need to work on.

Crews stated, "Defense is one of the areas where we lack. In our previous matches in

Kansas, there was quite a bit of improvement on defense."

In the team's most recent home victory against Greenville, the improvements on defense were in full swing. RLC players combined for eight blocks including three by Moeller. Freshmen Abigail Bennett (Ewing) and Emily Tate (Benton) combined for 18 digs in the same game.

The team may be struggling in a few areas, but it's against big competition.

"We've played Lincoln Land [College], who [is] ranked in the top-20 in the country," said Crews. "We've also played two division one schools in Lake Land College and lowa Lake [College]. Those two programs are both receiving votes in national polls."

The difficult schedule can help the team long-term, according to Crews.

"We have a really tough schedule this year and I did that intentionally. When I was making the schedule, I didn't want to put a bunch of fluff teams in there. When we get a win, I want it to be one that we deserve," Crews commented.

A number of tough games remain on the schedule. The team feels it will be ready.

"I feel like our team is really coming together so I'm excited for the rest of the season," Moeller commented.

Crews stated, "We know what we need to work on and we are working on it."

# RLC tennis making do on abbreviated roster

LADY WARRIORS — Rend Lake College doubles part-

celebrate a point in their win over Kaskaskia College.

ners Ally Adcock, LEFT, and Alyssa Williams quickly

BY JOSH MYERS

rend Lake News Staff Writer ith only three active players, the Lady Warriors tennis team is doing the best with what personnel it has.

(Rend Lake College Photo)

Despite winning most of what matches it has played, the Lady Warriors are winless in two meets against Kaskaskia College on the fall season due to a shortage of players.

They only have three active players; Allyssa Williams (Benton), Ally Adcock (Mt. Vernon), and Alli Reed (Mt. Vernon) and an injured player, Alyssa Burge (Mt. Vernon).

At each meet, the team that wins five of nine matches wins the meet. The Warriors are limited to only winning up to four matches because of the limited number of players.

That doesn't mean they aren't playing to win.

Reed commented, "We only have three girls. We're all just trying to play the best we can to make up for the two spots that we don't have."

Reed moved up to the number three spot from the number four last year and is playing well. She is 1-1 in singles matches including going 6-3, 6-3 in her victory against Kaskaskia.

With no chance to win any meets, Head Coach Dave Junkins is treating the fall season as a measuring stick for the spring.

"We use the fall to see what kind of players we have," Junkins stated. "We're bringing in players from different schools who don't know each other so we're trying to find the dif-

ferent combinations we want to use."

Coach Junkins and teammates are delighted that Williams and Adcock are having solid seasons thus far.

Williams is 2-0 in singles matches winning all sets 6-1, 6-0, 6-4 and 6-2.

Adcock is 1-1 in singles matches. She won her first match with scores of 7-5, 6-2 and lost her second match with scores of 5-7, 6-0 and 6-7.

The duo is 2-0 in doubles matches, winning 10-3 and 10-4.

"I'm pretty happy with what I'm seeing. Alyssa Williams is playing outstanding," Junkins added.

Reed stated, "Alyssa [Williams] goes after the ball. She grinds. Ally [Adcock] went to state [in high school]."

The team is looking forward to the spring season and contending for another Region XXIV Championship for a ticket to the national championship tournament.

"I'm really happy with the team. If we can recruit another player or two, we'll be a tough team in the spring," Junkins added.

The team needs a few players if they want to compete during the spring. Coach Junkins has a message for anyone interested.

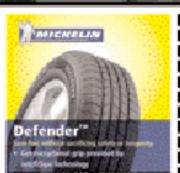

"If you've ever played tennis in the past and you want to get back into the sport, we have scholarships available. Plus, tennis is a great sport. It's a sport the adults haven't messed up," Junkins commented.

If Coach Junkins can get the number of players he needs, he's confident for the spring season.

He added, "We'll be a real good team."
